Education

Indian Institute of Technology, Bhubaneswar
B.Tech Metallurgical and Materials Engineering

CGPA: 7.6

Aug. 2023 - present

S.Bande Arts and Science Junior College Warud
HSC

Percentage: 92.33%

April 2021 - March 2023

Experience

GirlScript Summer of Code | *Open Source Contributor*

(May 2026 - Aug 2026)

- Ranked in the Top 8% globally in GSSoC 2026, earning 1,149 leaderboard points through open-source contributions and bounty tasks.
- Developed and contributed 3 Machine Learning/Deep Learning projects, with all 3 Pull Requests merged, collaborating with maintainers through GitHub/Code, code reviews, and issue resolution.

Skillfied Mentor | *Machine Learning Intern*

(March 2026 - April 2026)

- Developed and evaluated Machine Learning models including Random Forest, XGBoost, Logistic Regression, and SVM on real-world healthcare datasets.
- Contributed to end-to-end ML workflows spanning data analysis, model training, performance evaluation, and iterative model improvement.

Projects

Fashion Recommendation System 

Deep Learning / Computer Vision

- Built a content-based fashion recommender using pre-trained VGG16 CNN features to represent product images.
- Used cosine similarity on normalized feature vectors to retrieve Top-N visually similar products; deployed the end-to-end pipeline on Render.

E-Commerce Customer Churn Analytics & Prediction 

Customer Analytics / Machine Learning

- Analyzed 5,630 customer records using SQL and Python to identify behavioral and transactional patterns associated with churn.
- Applied statistical tests and built Logistic Regression, Random Forest and XGBoost models; achieved 0.999 ROC-AUC and 85% churn recall, with Power BI and Streamlit deployment.

Demand Forecasting & Inventory Optimization 

Time Series Forecasting

- Developed a SARIMAX-based demand forecasting system to model historical demand, trends and seasonal patterns for inventory planning.
- Built and deployed an interactive Streamlit dashboard with preprocessing, forecasting, visualization and Joblib-based model serialization.

Key Skills

- Programming:** Python, SQL
- Statistics:** Statistical Analysis, Hypothesis Testing, Probability, Statistical Inference, Time Series, Optimization
- AI/ML & Data Science:** Machine Learning, Predictive Modeling, Deep Learning, NLP, Transformers, Computer Vision
- Tools & Libraries:** Pandas, NumPy, Scikit-learn, PyTorch, TensorFlow, XGBoost, Statsmodels, Git, GitHub, Power BI
- Soft Skills:** Problem Solving, Analytical Thinking, Communication, Teamwork, Research

Position of Responsibility

Secretary, Souls for Solace

(July 2024 - April 2025)

Social Welfare Society, IIT Bhubaneswar

- Led a 150+ member, 3-tier student team, coordinating with Student Gymkhana and council members to execute large-scale social initiatives, donation drives, workshops, and community outreach programs.
- Spearheaded BDC, Children's Fest, government-school career guidance, cloth donation drives, and Swachhata Hi Seva initiatives, collaborating with NGOs including Youth for Seva and Goonj to expand community outreach.
